The 'Buddy' is a portable, remote infra red transmitter trigger for the Call Point - ATX3000 and can provide up to 12 call combinations to cover all eventualities.

There are two methods of operation:

- A push button alarm
- A lanyard pull pin alarm

When activated, the 'Buddy' transmits an alarm code and a call type to the Call Point - ATX3000. A push button cancel can be programmed to be active or non-active.

Power Supply

- 4xN size alkaline batteries

Indicators

- Red LED: Low battery
- Green LED: Transmission

Size

- Width 45mm
- Length 100mm
- Depth 20mm
