# Personal Security, Paging & DECT Systems

**BOSCH**  
Invented for life

With automatic alarms!

## PS6000

Personal Security

## DP6000

Digital Paging

## DECT6000

Personal Security, Paging and cordless telephony in one system

With three families of compatible Personal Security, Paging and DECT systems, Bosch provides various solutions for all business communication requirements. For people working in high-risk environments – such as healthcare institutions, detention centers or businesses with large compounds – the Bosch personal security mobiles add extra dimensions of safety and give personnel unrestricted freedom of movement.

### Prevent incidents becoming emergencies

Bosch Personal Security solutions provide extra protection for people working in hazardous environments. Sturdy yet lightweight, the PS-Pager combines personal security and paging with a dual display, manual alarm, a second manual alarm and location detection. Complete with tear-off and automatic alarms, the new compact PS-Pager features smart alarms that automatically detect an emergency situation – without user intervention. The compact PS-Micro units are an ideal solution for staff members working in high risk applications where paging is not required.

- ▶ New PS-Pager combines complete personal security alarm functionality with alphanumeric and speech paging
- ▶ New PS-Pager with automatic alarms: man-down/no-move, fast move
- ▶ Manual or automatic system self-checking
- ▶ Compact PS-Micro are easily concealed and difficult to forcibly remove
- ▶ Groups (response teams) can be simultaneously contacted
- ▶ Compatible with DP6000 pagers and easily interfaced with DECT6000

### In touch with your personnel

Bosch DP6000 Digital Paging provides a flexible communications platform that does not rely on the integrity of external systems, ensuring your personnel can always be reached. Fast, concise and targeted messages lead to quicker response times, higher productivity and better quality of service.

- ▶ A range of compact receivers
- ▶ Ultra reliable on-site paging
- ▶ Optional one-way speech communications
- ▶ Numeric and alphanumeric displays
- ▶ Choice of bleep tones, light signals and vibration patterns
- ▶ Fully compatible with PS6000 and DECT6000
- ▶ Easily interfaced with other (on-site) systems
- ▶ Independent system with no external call costs
- ▶ System size up to 10,000 receivers

### When reliability counts

An integrated personal security function gives reassurance to personnel operating in potentially dangerous environments. Combining on-site paging and DECT cordless telephony in one sturdy handset, the DECT6000 guarantees that personnel on the move can always be reached. DECT6000 IP integrates Voice over IP capabilities into a LAN network for DECT quality and VoIP network flexibility – a future-ready cost-effective solution for multi-site organizations.

- ▶ Fully featured Personal Security handset with location detection
- ▶ Robust cordless telephone handset with paging functionality
- ▶ Integrated DECT6000 IP adds Voice over IP capabilities to a LAN network.
- ▶ ATEX handsets for Ex-environments (gas and dust)
- ▶ Can be linked to almost any PABX
- ▶ Messages can be sent to groups or individuals
- ▶ Combining DECT6000 with DP6000 and/or PS6000 creates one single integrated solution
